

The Terminal is the oldest newspaper in Richmond and has the confidence and support of pioneers

RICHMOND TERMINAL

The Terminal boosts and advertises Richmond, directly increasing your property values.

The Terminal's Phone Number is Richmond 1321. Office 618 Macdonald Ave.

VOL. X

RICHMOND, CALIFORNIA, FRIDAY, OCTOBER 3, 1913

No. 40

City Hall to Remain In West Richmond

Present Quarters to be Used Until New Location Is Selected

The five years' lease on the present quarters occupied by city officials, known as the city hall, has expired. The time was up October 1, and the mayor appointed City Attorney Hall, City Clerk A. C. Faris and Councilman Garrard to confer with the owners, the John Nicholl Co., in regard to extending the lease.

It is not known what agreement the committee will arrive at, but it is intimated that the lease will be for a short period, as the new municipal buildings for Richmond are expected to materialize within the coming year.

Council Proceedings.

Bids for the paving of 17th from Macdonald to Chausser were referred to the city attorney. John Word's bid of \$7173 was the lowest.

The bids of Page, Chambers and Clinch for sewers on Potrero were also referred to the city attorney.

Council rescinded the order for bitulithic on 6th and ordered oil macadam.

W. J. Charles was granted permission to assign contract for paving of 11th from Barrett to Clinton.

Cushing was granted an extension of 30 days on 8th street paving.

Band concert petition laid over. Legality of appropriation is questioned.

Specifications for the opening of Golden Gate avenue ordered.

Property owners on south 13th ask investigation of paving, the top dressing of which they claim is breaking up.

Hutchinson's petition for private contract to pave A, B and C between Nevins and Barrett was denied.

The saloon license of Fine and Lewis, 308 Macdonald, was ordered transferred to Brash & Nelson.

Amendment of traffic ordinance introduced by Follett provides that all horse drawn vehicles must carry side lights after nightfall. City Attorney was asked to draft ordinance.

Bill aggregating \$18,714.75 were allowed, after which the council adjourned to meet Monday, October 6, 1913.

Loyal to Workingmen.

The Terminal circulates extensively among the working class. The latter patronize merchants who advertise in The Terminal, because The Terminal is the workingman's true friend.

The Terminal printed it for me.

Panama Canal Is Open For Traffic

Big Ditch Opened This Morning and Event Is Celebrated By Uncle Sam.

PANAMA, Oct. 3.—The news was flashed this morning from Panama that the big canal had been flooded and that the great gateway is now ready for the largest vessels of the sea to pass back and forth from Atlantic to Pacific oceans and vice versa.

This event is being celebrated in San Francisco today by ceremonies in Union Square. Wires were attached to the speaker's stand and when the flash from the cañal zone came announcing the opening of the canal the American flag was raised and an aerial bomb was fired notifying the city of the event. The municipal band played patriotic airs, and a battalion of blue jackets were sent over from Yerba Buena Island.

The following toast was adopted: "Here's to the Panama Canal, To those who conceived it, To those who achieved it, and To the event that celebrates it in San Francisco in 1915."

Selling Acreage.

M. J. Kelley sells acreage property every day. He is now selling in small acreage tracts some gilt edge orange lots in Tehama county, the orange belt. The oranges raised in this section of the state are early ones, and are on the market far in advance of the southern products around Los Angeles.

CONDENSED LOCAL.

Mrs. W. B. Brown has returned from a visit in Santa Clara.

San Pablo avenue in Richmond will soon be put in good repair.

The elevated gallery in the subway for pedestrians will soon materialize.

W. M. Veale, deputy sheriff, was in Richmond Wednesday on official business.

Arthur Devlin is here from New York baseball team which has fallen to the bottom of the cellar.

Mrs. I. C. Horner is visiting at the home of her sister, Mrs. Leo Morgan, in San Francisco.

Members of the city council are attending the meeting in Oakland today that has for its object the municipal control of the street railways of the east bay cities.

Alvarado F. Rice, familiarly known as "Fat," is selling real estate. He is with Fay at 23d, and has the attractive sky line property to work on, which is gilt edge in this bay section.

Interesting Figures On Cost of Living

Bureau of Labor Compares Prices With Those of Decade Ago.

The Bureau of Labor has just issued a report illustrating in a striking and forcible manner the extraordinary increase in living expenses for the period of twenty-three years and four months, 1890 to April, 1913. It covers fifteen articles, that represent approximately two thirds of the expenditures for food by the average workingman's family, and reports of retail prices are included from thirty-nine industrial cities, in which live one-fifth of the population of the United States. The increase in several expenses, as will be observed, is more than 100 per cent. The following table shows a percentage of increase, and will, no doubt, be read with very much interest:

Articles.	1890.	1913.
Sirloin steak	99.3	172.7
Round steak	97.6	199.1
Rib roast	98.7	173.4
Pork chops	96.5	218.0
Bacon, smoked	96.5	222.9
Ham, smoked	98.3	178.1
Lard, pure	98.5	166.8
Hens	102.8	179.7
Flour, wheat	110.2	127.2
Cornmeal	101.3	155.1
Eggs, strictly fresh	100.3	126.4
Butter, creamery	99.2	151.3
Butter, retail	100.0	159.2
Sugar, granulated	120.8	92.7
Alum, fresh	100.4	139.4

Dr. Dille Now in Berkeley.

Dr. E. R. Dille, for many years pastor of the First Methodist church of Oakland, but of late years pastor of the Central Methodist church of San Francisco, has succeeded Dr. Charles B. Dalton, pastor of the Trinity Methodist church of Berkeley. Dr. Dille is one of the "old guard," one of the few in his class of Methodist ministers, the majority having passed over the divide. He was pastor of the Oakland church for many years.

Columbus Day.

OAKLAND, Oct. 3.—A general invitation has been extended to all societies in the bay cities to take part in the big Columbus Day celebration which will be held on Lake Merritt and at Lakeside park Sunday afternoon and evening, October 12.

Asks City to Assist.

Supervisor W. H. McBryde appeared before the city council Monday night and asked the city to cooperate with the county in improving San Pablo avenue, a portion of which runs through the eastern boundary of the city. A good macadam will be put down. The county will do the work from Stege Junction to the Santa Fe railroad crossing. The avenue will be improved as far as San Pablo.

Another Burglary.

Among the numerous burglaries of recent date the Fairview hotel, East Macdonald avenue corner 22d, was visited by one of the gentry Sunday morning. Clothing, jewelry and sundry articles were appropriated to the amount of \$100.

Merchants Know It.

The Friday Morning Terminal is the best advertising medium, because Saturday shoppers have sufficient time to read the special bargains and also the summary of the week's local news.

Off for Venice.

The city council Monday night made provision for the city officials, expenses who will attend the convention of the California League of Municipalities which meets next week in Venice, southern California. About twelve representatives of the city will go.

NOTICE.

This is to notify the public that we have taken over the Olds Transfer Co. We will not be responsible for any bills contracted by George Olds, former proprietor of the Geo. Olds Transfer Co. Prybo & Redfield.

Tideland Titles to Be Investigated

Right of Way For Municipal Tunnel Must Be Free From Litigation.

Representatives of the industrial commission, Richmond's civic organizations and the city council met last night in the city hall, Point Richmond, the prime object of the meeting being to arrange for the securing of titles for all the land connected with the harbor and tunnel projects.

Geo. S. Wall, the man whose name and interests are so closely connected with that of Richmond, H. W. Wernse and others of the industrial commission and local civic bodies suggested plans that will aid in the co-operation of the government and immediate results in the starting of the big bore and the development of harbor work.

Plans For Another Hotel.

Although Mrs. Bonfear was compelled to close her modern hotel on account of lack of patronage, it is rumored that plans are being drawn for a three story structure to be used for hotel purposes at 16th street, four blocks east of the Bonfear hotel. A liquor license was applied for, and the city council will take action next Monday night. Accompanying the application were the plans drawn by an Oakland architect. The applicants stated that the construction of the building depended entirely upon the granting of a liquor license. In view of the fact that the agitation is now on for reducing the number of saloons in all the bay cities and that a statewide movement is on to limit the drinking places, the moral element of Richmond will watch the action of the city council next Monday night.

PERSONAL AND LOCAL.

Red Men are arranging for a Thanksgiving dance.

Ask R. W. Byrn if it pays to get a "flat tire" in Merced.

All the local news worth while is summarized in The Terminal.

The Eagles are negotiating for club rooms in the Pillow building.

W. A. Lucas has the "key to the situation." Ask him for one.

H. L. Penry and Dick Williams finished their contract at Concord Tuesday and moved back to Richmond.

One more professional man has located in Richmond and invested in a fine home at 23d and Montgomery. He is Dr. Moore of Mendocino county, with offices at 32d and Macdonald.

The Herman Sons installation Wednesday night was a big affair. E. Forwick was chairman of committee on entertainment, which in a measure accounts for the success of the social features of the evening.

The Terminal is not a venture. It is the old established newspaper of Richmond, here to stay. Like the birds of passage, "they may come and go," but The Terminal will always be found doing business at the old stand.

In Serious Condition.

Mrs. A. Baker, mother of the piano tuner, was taken suddenly ill on the streets of Oakland. She temporarily lost the use of her limbs and speech. She was taken to the emergency hospital and the diagnosis was at first paralysis, but a later examination proved it to be a rupture of an internal blood vessel. The loss of blood continues to such an extent that she is yet unable to be brought to Richmond.

Church Notices.

First Baptist Church, near Nicholl—S. S. at 10; preaching at 11 and 7:30; prayer meeting Wednesdays at 7:30. All invited. S. K. Skinner.

Calvary Baptist Church—S. S. at 9:45. Preaching services at 11 and 7:30. B. Y. P. U. at 6:30. A hearty welcome is extended to all who come. Rev. W. S. Stewart, Pastor.

Beautiful Sky Line Residence Section

East Richmond Hill Property Is Ideal Locality For Home Place.

The sky line boulevard that skirts the hills bordering East Richmond is certainly the most beautiful and fascinating in the west. The scenic view from these undulating hills fills one with inspiration and a desire to linger and admire the charming vista of land and sea. These beautiful hills overlooking the western gateway to the continent are being sub divided into homesites, the landscape artist assisting nature in beautifying and making ready these desirable residential places.

There is Thousand Oaks, Kensington and Berkeley Heights at the Contra Costa county line to the south, with a sky line street car service that is extended into Contra Costa and will parallel the sky line boulevard when completed.

Further north comes Richmond Junction, East Richmond Heights and then Kensington Terrace. The latter is undoubtedly the cream of the hill property and entirely free from the fog that banks up against the Berkeley hills to the south at the county line. Many inquiries are coming from Imperial and San Bernardino counties. The residents of these torrid valleys want summer homes, and they are going to take advantage of the opportunities offered here in preference to prohibitory prices asked by southern coast cities.

An Imperial Valley man, a friend of the Terminal editor, purchased two fine lots near the sky line boulevard and will build there an attractive residence. Others will follow. This property will be as valuable as Telegraph Hill in a few years.

Sacramento River Water Is Favored

The water commissioners received estimates from the engineers as follows: Complete system, \$2,295,750, 12 inch wood stave pipe. Steel riveted pipe, \$2,880,319, and cast iron pipe \$4,958,409. This is estimated on a San Joaquin or Sacramento river supply, the latter being preferred, 12,000,000 gallons being the daily supply.

The intake would be in Solano county, 60 miles distant, reservoirs being located at Antioch and Richmond. The district distributing system is estimated at \$800,000.

The Merced Way.

Automobilists have taken Merced's number in regard to repair charges. R. W. Byrn, the Richmond real estate dealer, had the misfortune to have his machine break down while in Merced last week, and now a San Francisco attorney, who was in Merced at the time and witnessed Mr. Byrn pay a bill of \$55.25 for repairs, that should have been one fourth that amount, will take a hand in the matter. He will bring suit against the garage for extortion, and he says he will recover for his client, who paid the bill under protest.

Silverias Brothers.

F. I. Brazil, the pioneer creamery man of Richmond, who has operated very successfully a growing business in this city for many years has sold his interests to Silveria Bros., who will continue the business of the Golden Gate Creamery at the old stand on Richmond avenue at Point Richmond and contemplate improvements in the service. They will sell pure milk, fresh butter and eggs, not to be excelled anywhere in Richmond or on the Pacific coast. The sanitary conditions are perfect and prompt delivery is assured. The Terminal wishes the outgoing proprietor abundant success in any undertaking, and best wishes for the new firm the highest success.

The El Dorado flyer, leaving San Francisco at 5 p. m., will now stop at Richmond, arriving at 5:49.

Western Pacific Co. Again Surveying

Transit and Chain Men Sticking Around the North Bay Shore.

The Western Pacific railway may soon build upon its survey through Richmond and cross San Pablo Bay by ferry to bring in passenger service and freight via North Richmond. Surveyors were busy on the northern shore again yesterday. The road will cross Macdonald avenue on First street, with an electric service through to Oakland. The depot will be opposite the Topoka rooming house.

The New Portola.

The Portola restaurant, between 7th and 8th on Macdonald, is under a new management, J. Hoar, the well known caterer, now in charge. The interior has been renovated and reconstructed and made modern and sanitary in all departments. All white help is employed, and the best service will be rendered, especial attention being given to the family trade.

Not Guilty the Verdict.

Gordia Casstevens, charged with the killing of Francis I. Tousing in Richmond July 5, was acquitted Wednesday, the jury after being out several hours agreeing on the above verdict.

Contractor O. L. MacQuiddy, candidate for justice of peace, of Walnut Creek, has completed 12 new cottages at Avon for the Associated Oil Co.—Transcript.

Albany will adopt the siren to assemble its policemen. Berkeley is the first city to adopt this novel way of quickly assembling the blue-coats in emergencies.

The light committee has recommended installing lamps at Stannage and Dartmouth, Dartmouth and Talbot, Portland and Stannage and one at Washington and Talbot.

The return of Rev. W. L. Coffman to Albany is endorsed by all good citizens of Albany. Rev. Coffman is doing good work to make Albany a desirable residence town.

Albany Makes Many Fine Improvements

Sidewalks, Parkings and Trees Add to the Appearance of Things.

Special to The Richmond-Terminal. ALBANY, Cal., Oct. 3.—Albany is making rapid strides in the way of improvements. The city trustees are busy with municipal affairs, and the proposed new city hall and firehouse and other improvements seem assured since the bond election at the county line carried so unanimously for the sanitary district. Albany has a fine sanitary system, the drainage being perfect. With good streets and sidewalks, ornamented with trees and green parking, Albany is destined to be the residential section at the naval base.

Albany Notes.

The fountain at Main and San Pablo is a beauty.

The socialists held a meeting in Maccabee hall Tuesday night.

Lisle C. Green is in Imperial Valley looking after his ranch property.

A suggestion has been made that the goats as well as the dogs of Albany be muzzled.

Miss Anna Miller won the first prize at the El Cerrito whist party Friday evening.

Several Maccabees went to Vallejo last Saturday night to visit the lodge there.

Agitation for playgrounds is still on, with good prospects that the city will vote bonds for this purpose.

Albany will send delegates to the convention of the League of California Municipalities that meets in Venice.

Margaret Glavinovich has subdued the speed artists. They are adopting the 10-mile gate through Albany.

Wesley Baker, the contractor, is in Oakland finishing up some work there. George Browne is working for him.

The S. P. Co. has notified the women's improvement club that the shrubbery would be furnished for ornamenting the grounds at the Main street station.

MINOR NEWS NOTES OF THE WEEK

Brief Mention of Interesting Events From All Parts of the Globe

Doings and Happenings That Mark World's Progress—Personal, Political, Historical

Athens—Greece has begun active military preparations for another war.

Washington—The largest gun lathe in the world is to be installed at the Washington navy yard. It is 185 feet in length and will weigh 400 tons.

Milwaukee, Wis.—Ten firemen were burned, three persons seriously, here, during a fire which destroyed \$75,000 worth of coal, docks and dock buildings.

Washington—The total damage from floods last spring was \$163,000,000, of which 70 per cent was done in Ohio and Indiana, according to the United States Weather Bureau.

New York—The hens around New York have almost quit laying and "strictly fresh near-by eggs" sold in Manhattan as high as 65 cents a dozen, an unprecedented price at this season.

Washington—Advancement to the rank of Major-General will be tendered Colonel George W. Goethals, engineer in charge of the Panama canal, in recognition of his services to the government.

New York—Corsets must go, according to Paul Poiret, the Paris fashion expert, who is visiting New York. High heels and feathers are also frowned on by high society in the French capital.

Oajeda, Morocco—Another French military aviator was killed when Lieutenant Auguste Louis of the Thirtieth Rifle Regiment fell 250 feet while attempting to glide to the ground with his machine.

Dublin, Ireland—John Redmond, leader of the Irish party, became a grandfather last week when twins were born to his daughter, Johanna. Her husband is Max S. Green, chairman of the Irish prison board.

Rhine—Marcel Cavelier, the French aviator, was seriously injured when his monoplane fell with him from a height of 80 feet. He had just flown here from Juvisy to take part in the race for the international airplane cup.

Washington—Free tolls for goods, exhibits and materials shipped through the Panama canal for use at the San Francisco Exposition will be urged by President Wilson in his message to congress at its opening in December.

Eureka, Kas.—A tornado passed through Eureka a few days ago, doing much damage. Nearly every house in the path of the storm was unroofed. Many were torn down. Only a few persons were injured, none dangerously.

Tokio—A plot to assassinate the Japanese minister of foreign affairs, Baron Nobukazu Makino, and dynamite the foreign office has been unearthed by the police. A miner who had stolen explosives for this purpose has been arrested.

Berlin—Terror reigns in Styria, Austria, arising from the depredations of a lioness and her cubs and a number of wolves and hyenas, which recently escaped from a menagerie. The beasts are said to have killed 200 cattle and 400 sheep.

London—Prince Henry, third son of King George has entered Eton. He is to be a "dryboy," in other words a cricketer, not a rowing man. The first thing he did at college was to buy the traditional top hat. Prince Henry is 13 years of age.

Rockford, Ill.—Although he had worked for years for \$7.25 a week and practically lived off his charity inclined shopmates, Andrew Trulson, 75, found dead in his room, left an estate estimated at \$50,000. Trulson worked for 49 years in Chicago as a machinist.

Lincoln, Neb.—Kate Cornelius, aged 9, and for six years an inmate of the Nebraska State Feeble-Minded Institution, has been taken to the state school for the deaf at Omaha, for instead of being an imbecile she was perfectly normal except for the defect in her hearing.

Ellinwood, Kas.—While struggling to wrest a shotgun out of the hands of his 19-year-old son, with whom he had argued, H. P. Panning, 80 years old, a pioneer farmer and wealthy land owner here, was shot and killed. A coroner's jury pronounced Panning's death an accident.

West Orange, N. J.—When Thomas A. Edison returned to his laboratory after his illness, a new office boy, two days on the job, intercepted him in the hall. "You must see Mr. Edison's secretary first," the boy told him. Edison carried out the joke and afterwards complimented the boy on his obedience to orders. The inventor says he feels better since his enforced rest.

Earnest Work for Suffrage Amendment—Washington—A determined effort to compel congress to act on the proposed amendment to the constitution which would give nation-wide votes for women is to be made during the week of the convention here beginning December 1, of the National American Women's Suffrage Association.

Floods Rain Rye—Paris—Ninety thousand tons of rye was destroyed by the recent floods in French Indo-China.

News of Pacific Coast Condensed

San Francisco—Ira Nelson Morris of Chicago has been appointed special commissioner for the Panama-Pacific Exposition to Italy to arouse interest in that country in California's exposition.

San Diego—A four-day carnival was held here last week to commemorate the discovery of the Pacific ocean by Balboa, the discovery of San Diego bay by Cabrillo and the building of the first mission in California by Father Junipero Serra.

San Rafael—The historic old Bolinas San Rafael "stage and four" is soon to be a thing of the past. Horse flesh is about to give way to motor trucks which, it is claimed, will cut down the time between this city and the sea coast resort from five hours to two.

Alameda—As the result of complaints which have been received by the local police, Chief Conrad has sent out circular letters to all owners of cigar stores and pool and billiard halls to bar minors from their premises.

Los Angeles—George F. Tilton, 43 years old, head of the Tilton Trolley Trip Company, committed suicide by taking poison. Tilton originated and conducted for several years trolley trips in the vicinity of Los Angeles. Several years ago the trolley companies took over the business.

Oakland—Breaking a record of 28 years during which the California annual conference of the Methodist Church has been held in Pacific Grove, the meeting will be held in Oakland next year. It will take place at the new First Methodist Church, which is being built at Twenty-fourth street and Broadway at an expense of \$150,000.

Portland, Or.—Aviator Ed. Steele completed the last stretch of his Coos Bay-to-Yaquina flight by traveling in his hydro-aeroplane from Waldport to Toledo on Yaquina bay in one hour and 35 minutes. Steele, by virtue of his trip of 100 miles, claims the Pacific Coast record for an over-water flight, the distance he covered being 120 miles.

Portland, Or.—In a spectacular fire which destroyed an entire downtown block of low buildings across the street from the Union Depot, the big Union passenger terminal of Portland was scorched and menaced for a time, and about 150 horses owned by several transfer companies which had stables in the block were turned loose into the streets.

Sacramento—Governor Johnson has appointed a site commission to select a tract of land of approximately one hundred acres for the establishment of a training school for girls. When the training school is completed all the girl inmates in the Whittier Reformatory will be transferred there. The Governor states that all the trustees will be women.

San Francisco—At a meeting of the board of directors of the hall association of the Native Sons of the Golden West, a dividend of 20 cents per share was declared, payable January 1, 1914. This is 24 per cent on the issued capital stock and represents the net profit of the Native Sons' building for a period of one year extending from September 1, 1912, to September 1, 1913.

San Francisco—James B. Nakada, Japanese court reporter, was shot and killed in a lodging house at 1047 Stockton street by a fellow countryman whose identity is unknown. The police decided that the motive for the crime is based on the fact that a short time ago Nakada gave information to the federal authorities that led to the deportation of seven Japanese women who were inmates of a resort here.

San Francisco—The mine output of gold, silver, copper, lead and zinc in California in 1912, according to Charles G. Yale of the United States Geological Survey, was valued at \$26,383,946, an increase of \$1,209,269 over the corresponding value for the year 1911. The increase is due mainly to a gain in yield of gold from deep mines, increased value from copper and silver and increased output of zinc.

Seattle—Since the government removed the charges of 14 per cent formerly made at the Seattle assay office on gold received from Alaska, the receipts have shown a marked increase. Since July 1st of this year the receipts have amounted to \$4,463,000, against \$1,934,000 for the corresponding period of 1912, an increase for this season of \$2,529,000. This is considered phenomenal in view of the drought in the north, which seriously hampered sluicing operations in the most productive of the northern fields.

Los Angeles—As a penalty for their operations in obtaining false signatures to a referendum petition against a county salary ordinance, A. B. Maple and Earle G. Clarke cannot vote for three years, cannot smoke cigarettes, visit pool parlors or drink. Instead, they must stay home nights. Maple must give his pay envelope to his wife, and Clarke must support his widowed mother. All of these conditions of probation were specified by Judge Jackson.

Big Leaguer to Manage Oaks—San Francisco—Arthur Devlin, former New York Giant third baseman and this season infielder with the Boston Nationals and Rochester clubs, will manage the Oakland baseball club next season.

Play Grounds for Children—Stockton—The children of Stockton are to have access to six public play grounds in 1914. The city council has included in its budget for the coming year \$8000 for sites.

425,000 WILL PAY INCOME TAX

To Contribute \$82,298,000 as Their Share in Meeting Uncle Sam's Expenses

If You Make Over \$3000 a Year the Collector Will Call on You For Your Report

Washington—According to estimates by treasury experts, 425,000 American citizens must keep such accurate account of their incomes this year that they will be able to report to the income tax collector next spring exactly how much they owe the government under the new income tax law.

So far as the taxable American is concerned, the income tax law practically now is in force against him. The law is made effective from March 1, 1913, the tax for 1913 to be collected to December 31, 1913, and then annually.

Every single person (citizen or foreign resident) whose annual income exceeds \$3000, and every married person with an income above \$4000 is expected to report his or her receipts in detail to the government agents March 1 of each year.

The estimate indicates that the income tax will produce \$82,298,000 to the 425,000 persons taxed. To this will be added the \$35,000,000 or more produced by the present corporation tax which is continued as part of the law.

Two primary methods of collecting the tax are contained in the law. One is the individual return made by the citizens, the other the returns by corporations and other employers who pay their employees' taxes "at the source."

Under the law every large company employing labor will be compelled to report any regular salaries it pays in excess of the \$3000 figures, and will pay the tax from the source, and will deduct the tax from the pay envelopes.

This "payment at the source" will apply to salaries, rent, interest, royalties, partnership profits and some other sources of income, and persons receiving such incomes must be prepared to show that the money has paid its tax at its source.

San Francisco—Joseph J. Scott, collector of internal revenue for the district which comprises all of California except ten southern counties and the entire state of Nevada, has completed the income tax estimate requested by the treasury department.

After a thorough investigation, in which no reliable source of information was overlooked, he figures that his district has 80,000 residents who will be liable to the income tax. Of this number, he estimates, 65,000 have incomes in excess of \$3000 exemption, but not exceeding \$30,000; 12,500 will fall into the \$30,000 to \$50,000 class; 2000 in the \$50,000 to \$100,000 class, and 500 will pay the top notch tax imposed on incomes in excess of \$100,000.

The tax runs from 1 per cent on \$3000 up to 4 per cent on \$100,000 and over. Revenue Collector John P. Carter of the Los Angeles district estimates that 20,000 persons resident in his section are liable for income taxes. Of those liable to taxation says Carter, 1000 have incomes ranging from \$20,000 to \$50,000; 40 must pay taxes on incomes of between \$50,000 and \$100,000, and 12 have been found whose incomes are more than \$100,000. The rest of the 20,000 taxpayers have incomes of between \$3000 and \$20,000 a year.

Right fielders too the list of load off men in the batting order. There are five of them just now—Moeller, Daniels, Murphy, Moran and Hooper.

Beals Becker is hitting so well he has taken Sherwood Magee's job in left field. Magee is doing grand service, however, as a pinch hitter.

Joe Tinker is building up a team for next year. He bought Second baseman Hal Chase from the Victoria Northwestern league team.

The hottest race in the American league is that between Fisher and McConnell of New York to see who can lose the most games.

Smith of the Boston Braves seems one real find. The young man is hitting well over 300, and can play any position, infield or out.

Pitcher Wolfgang, who was released to Denver last spring by the White Sox, has been doing grand work for Manager Hendricks.

If the Browns were only as high in the percentage table as Carl Wellman is tall, then Connie Mack might be doing some worrying.

Pitcher Dick Robertson in the South Atlantic league, so far holds the record for consecutive wins. He won seventeen straight.

Herbert Moran of Brooklyn comes pretty near to the top class as an outfielder. He is very fast and a good judge of fly balls.

Frank Schulte, after watching Larry Lajotte slam the ball all over the lot, declares that the Frenchman is king of all batters.

Jake Fittory, pitcher of the Evansville Central league club, shut out Terre Haute, not allowing a hit during the nine innings.

It is said that Charley Herzog, infielder with the Giants, may figure in a trade that will send him to Cincinnati next year.

Friends of Rube Marquard, the big left-hander of the Giants, claim that he is developing into a second Christy Mathewson.

Jake Daubert is the real slugger in the National league. Jake has been at bat 314 times and has hit for a .357 average.

Another idea of a waste of railroad fare is for any major league team other than the Athletics to send a scout to Baltimore.

The Red Sox have purchased Jim McConney, start shortstop of the Worcester team of the New England league.

St. Worth's new outfielder, Conkrite, pronounces his name Con-cro-te, and, of course, the wags have to have their joke.

Bill Killifer, backstop of the Phillies, is one of the best throwing backstops in the league.

BASEBALL

A report is circulated in Southern league circles that Charley Starr, captain of the Mobile team under Mike Finn, will branch out as manager himself next season. He may succeed Finn at Mobile and then again he may have a desire to go elsewhere.

Doe Ayers, a southpaw, who will report to Washington in the near future, pitched and won a double header for the Richmond team, and when Griffith heard how his youngster was being worked he was hot under the collar.

Bill Carrigan, the newly appointed manager of the Red Sox, expects his team to beat out Cleveland and Chicago in the race this season just as soon as his pitchers get working again.

If Benton takes his case to the national commission he will have a very slim chance of making the Cincinnati club pay his salary for the time he is out of the game as a result of his injury.

Clyde Milan, the speedy Washington outfielder, says that the catchers are showing improved form in the American league this year, and that it is harder to pitch than before.

Griffith has added another southpaw to his staff in the person of Harry Hedgepeth of the Petersburg team of the Virginia league. The youngster is said to be a giant in size.

A Sioux City critic says Brother Fred handed Josh Clarke a bunch of lemons in the three recruits sent to the Sioux from Pittsburgh. Not one of them was of class A quality.

Hughie Jennings believes Frank Chance will give the New York Yankees next season. Hughie even thinks the Chance got the best of it in the Chase-Zelder-Borton deal.

"Times certainly have changed," says Manager Birmingham. "Young sluggers will not sign up unless you give them a bonus. Isn't that the limit?"

Ed Konetchy, the Cards' first sacker, has missed but four chances out of 1,116. He has a good chance to beat Frank Chance's fielding record of .996.

Right fielders too the list of load off men in the batting order. There are five of them just now—Moeller, Daniels, Murphy, Moran and Hooper.

Beals Becker is hitting so well he has taken Sherwood Magee's job in left field. Magee is doing grand service, however, as a pinch hitter.

Joe Tinker is building up a team for next year. He bought Second baseman Hal Chase from the Victoria Northwestern league team.

The hottest race in the American league is that between Fisher and McConnell of New York to see who can lose the most games.

Smith of the Boston Braves seems one real find. The young man is hitting well over 300, and can play any position, infield or out.

Pitcher Wolfgang, who was released to Denver last spring by the White Sox, has been doing grand work for Manager Hendricks.

If the Browns were only as high in the percentage table as Carl Wellman is tall, then Connie Mack might be doing some worrying.

Pitcher Dick Robertson in the South Atlantic league, so far holds the record for consecutive wins. He won seventeen straight.

Herbert Moran of Brooklyn comes pretty near to the top class as an outfielder. He is very fast and a good judge of fly balls.

Frank Schulte, after watching Larry Lajotte slam the ball all over the lot, declares that the Frenchman is king of all batters.

Jake Fittory, pitcher of the Evansville Central league club, shut out Terre Haute, not allowing a hit during the nine innings.

It is said that Charley Herzog, infielder with the Giants, may figure in a trade that will send him to Cincinnati next year.

Friends of Rube Marquard, the big left-hander of the Giants, claim that he is developing into a second Christy Mathewson.

Jake Daubert is the real slugger in the National league. Jake has been at bat 314 times and has hit for a .357 average.

Another idea of a waste of railroad fare is for any major league team other than the Athletics to send a scout to Baltimore.

The Red Sox have purchased Jim McConney, start shortstop of the Worcester team of the New England league.

St. Worth's new outfielder, Conkrite, pronounces his name Con-cro-te, and, of course, the wags have to have their joke.

Bill Killifer, backstop of the Phillies, is one of the best throwing backstops in the league.

Cy Morgan, cast-off Athletic twirler, is wanted by a number of big league clubs.

Eddie Collins leads them all in run getting.

JOHNSON GIVEN SILVER CUP

Walter Johnson, the premier pitcher of the American league, was recently presented with a silver loving cup filled with money by the fans of the city of Washington. Oliver P. Newman, chairman of the board of commissioners of the District of Columbia, is shown making the presentation speech. He is holding cover of the cup to show the inside filled with money. More than \$1,100 was subscribed by the fans for this token to their idol. Walter is shown standing at the left of Mr. Newman. The ceremony took place at the ball park in Washington just before the game with Detroit started.

Connie Mack, when asked concerning the ability of George Brickley, the Everett High school baseball player, says he is satisfied with the youngster and thinks he has found another schoolboy wonder.

Christy Mathewson has an average of .872 for the thirteen years that he has been in the big leagues. Manager McGraw says "Big Six" is without an equal, considering all points.

Eddie Plank is being termed the slowest pitcher in the American league. Stall off the batter, says Eddie, and he gets over anxious and then you have him.

Joe Tinker is showing the baseball bugs that he can play third base as well as short. The Reds' leaders has put Marty Berghammer at short.

Manager Connie Mack believes that Bob Shawkey will prove a valuable addition to the Athletics' pitching staff.

Snell, the former captain and catcher of the Brown university team, is being groomed to play first base for the Red Sox.

The latest report concerning the travels of Albert (Red) Nelson had him with Buffalo in the International league.

And now they are talking of the Yanks getting Mike Donlin. Donlin might be a big help to the New York team.

Clark Griffith believes he has the speediest trio of outfielders in the league in Moeller, Milan and Shanks.

The Phillies have the four best extra-base sluggers in the league in Cravath, Luderus, Lobert and Magee.

Manager Chance says he will have a real pennant contender next season.

The Longwood Cricket club, near Boston, the oldest lawn tennis organization in America, is the first to construct covered courts in this country. The new building will be of steel and stucco on terra cotta blocks, 120x102 feet, and 35 feet high. It will contain two full-sized double courts.

A unique feature of the sporting arrangements at the 1915 Panama-Pacific fair at San Francisco will be a huge ice hippodrome costing \$200,000 for ice sports which by special processes will be fit to use even during the heat of the summer sun.

Long-distance golfing has become something of a fad in England. Two golfers recently undertook to play from Maldstone to Littlestone-on-Sea, a distance of about 35 miles, in 2,000 strokes. They succeeded in doing it in 1,087 strokes.

The Lancashire Pigeon derby, said to be the most famous bird race in England, was participated in this year by 6,625 birds, representing 2,000 lofts. The birds flew from Nantes, France, to Lancashire, England.

Until the 1916 Olympic games are held in the Berlin stadium various contests will take place there to enable the German athletes to become familiar with the various kinds of sport.

Dr. Emanuel Laaker, chess champion of the world, will defend his title against A. K. Rubinstein of Russia in April, 1914.

On an extremely hot day an albatross man could hike to the polar regions for a bit of ice and get back in time for dinner.

Los Angeles light harness horsemen plan to bring eastern horses there some time in October for a big meeting to be run off at Exposition park track.

Not in many years has the attendance at the trots been so great as it is this year.

Harold S. Vanderbilt will take his yacht Vagrant abroad to race.

Boston is to have a new boxing club.

New Canner.
A shelf full of preserves is the joy
of the good housekeeper, and, there-
fore, most interesting at this season is
a patent canner and sterilizer for pre-
serving fruits. These are in tin cans
so made that fruit, instead of being
cooked from the bottom up, which re-
duces it to a pulp, is steamed from the
top down. This keeps both the color
and flavor of the fruit, and preserv-
ing may be accomplished without sug-
ar.

WOMEN'S BREAST
CANCERS CURED

Without Knife, Pain, or Pay Until Cured

I testify and swear for the good
of humanity, that old Dr. S. R. Chamley
and Mrs. Dr. Chamley of San Francisco,
Cal., with their wonderful PAINLESS
PLASTERS cured a cancer in my
breast, and one in each of my
mother's breasts, after surgeons tell-
ing her both her breasts must be cut
off or she would die quickly.

My cancer grew in one year to the
size of a small orange, and Dr. Cham-
ley cured me at my home in two
weeks. We have both been well over
eight years. Mother has since nursed
for Dr. Chamley and knows of hun-
dreds of all kinds and all sizes of can-
cers he has cured that were even
larger than ours. I will write to any
one and describe the wonderful cure
that saved both our lives if they send
addressed envelope. Doctor wants to
see all his old friends.

Mrs. Anna Balache,
740 Louisiana St., Vallejo, Cal.
Subscribed and sworn to before me
this 15th day of September, 1913.
[NOTARY SEAL] A. J. Henry, Notary.

WINCHESTER

"Repeater"
Smokeless Powder Shells

For a high grade shell at a reasonable price,
the Winchester Loaded "Repeater" has the
call among sportsmen who have tried all
makes. Although moderate priced, the
"Repeater" is loaded with the best quality
of powder and shot. The list of loads furnished
in this shell cover most shooters' requirements,
and all of them give a full measure of shooting
satisfaction. Look for the W on the box. They are

Kill Dandruff,
Make Hair Grow

For dandruff, falling hair, or prema-
turely gray hair use this formula:
Bay Rum, 6 ounces; Lavender Com-
pound, 2 ounces; and Menthol Crystals,
1/2 dram. If you desire, add 1
dram of your favorite perfume. Mix
the tonic yourself or have your drug-
gist mix it. Apply night and morning
with fingers. Lavona contains a pow-
erful drug that stimulates the activity
of the hair-growing follicles and is
believed to give renewed action to the
pigment-forming cells so as to ac-
tually restore natural color to pre-
maturely gray hair without the use of
dye.

GIVE UP WORK GRADUALLY

Man Accustomed to Regular Duties
Makes Mistake When He Sud-
denly Ceases All Labor.

Many business men at the age of
fifty or fifty-five work eight hours a
day and enjoy it. They will tell you
they feel as young as they did ten
years before.

Then some of them conclude they
have enough of this world's goods and
retire.

It is a well-known fact that brain
or muscle work forms in the system
a poison, and if we keep on working
a condition which doctors call auto-
intoxication is produced. Which
means that the antitoxin nature has
produced in our bodies has not been
enough to offset the poison of our
burned up energy.

Rest and deep sleep are supposed
to clear the body of all poisons and
waste. But it has been proved in the
cases of persons who use drugs that
after they have taken into their
system a certain drug in increased
amounts for some months they can
stand an amount which would kill a
dozen persons not accustomed to the
drug.

From the minute the drug was in
their system nature started to work
to produce in that body an antitoxin
to fight the poison they were taking.
Nature gets many habits of her own,
and she gets into the habit of expect-
ing to form an antitoxin to battle
with that poison or drug which that
body has been taking daily, and she
produces it daily.

Now suddenly let that same body
stop taking into it the drug it was
used to; nature does not stop form-
ing the antitoxin. No indeed; she goes
right on for weeks and months form-
ing the antitoxin she has been accus-
tomed to form, and the little fighting
army to fight and being of a poison-
ous nature themselves, turn from lit-
tle workers, when they have their
own work to do, to bad workers, with
no work, and start fighting the good
cells of the body, producing a self-
poisoning which is likely to cause
death.

If a man has been working daily
for years and the energy used up by
work has produced a sort of poison-
ous waste, enough to cause auto in-
toxication if not cleared out by rest
and sleep, would it not seem reason-
able that nature had daily in that
man's system been forming an anti-
toxins to offset the poisonous waste
and that when he suddenly stops
work the same condition takes place
as with a person who takes poison?

The antitoxin cells, finding no poison-
ous waste to work on, turn and work
on the good cells of the body, causing
auto intoxication and sickness and
many times death.

Mothers will find Mrs. Winslow's Soothing Syrup
very handy to use for their children during
the teething period. Adv.

Unpardonably Behind.
The American chorus girl, who is
now invading London with great suc-
cess, is nothing if not up to date.
Mr. George Arliss, whose perform-
ances in "Disraeli" are arousing so
much interest, illustrates this with a
story. "You are behind the times
over here," said a pink and pretty
American show girl. "Why, I notice
that 'Twelfth Night' is playing in one
of the Strand theaters and we had
that two years ago on Broadway."

SUN HOLLOW WIRE SYSTEM
Superior to all other pressure
systems. It is the only system
that will not rust. It is the only
system that will not leak. It is the
only system that will not break.
It is the only system that will
not cost you money. It is the only
system that will not give you
trouble. It is the only system that
will not give you a headache.
It is the only system that will
not give you a stomach ache.
It is the only system that will
not give you a cold. It is the only
system that will not give you a
flu. It is the only system that will
not give you a fever. It is the only
system that will not give you a
chill. It is the only system that
will not give you a shiver. It is the
only system that will not give you
a tremor. It is the only system that
will not give you a convulsion. It
is the only system that will not
give you a stroke. It is the only
system that will not give you a
heart attack. It is the only system
that will not give you a death.
It is the only system that will
not give you a life.

Tobacco Habit
Easily Conquered

A well-known New Yorker of wide expe-
rience has written a book telling how the tobacco
habit may be easily and completely ban-
ished in three days with delightful benefit.
The health improves wonderfully after the
nicotine poison is out of the system. Guiness
transit sleep, clear eyes, no mal appetite, good
digestion, many vigor, strong memory and a
general gain in efficiency are among the many
benefits reported. No more of that nervous feel-
ing; no more need of pipe, cigar, cigarette or
chewing tobacco to pacify the morbid desire.
The author, Edw. J. Woods, 534 Sixth Ave., 159 E.
New York City, will send his book free on ap-
plication, to anyone who writes to him.

MARGARET'S PLAN

Desired "Impression" Was Made,
Though Not in the Way
She Intended.

"I have just received a letter from
Mr. Parker," Margaret announced to
her sister. "He is coming to Ashton
for a week. I suppose he wants rest
and quiet."

"Rest and quiet, and most of all,
you, shy little Peggy sister. Oh, I'm
getting excited already. He is so big
and handsome. Now, aren't you glad
you listened to us and went to Cousin
Helen's city home last winter?"

"Never had a chance to meet
people. We shall have to invite him
to dinner some day, don't you think
so, dear?"

"That's what is troubling me, Dora.
I feel that we should, but could he
make allowance for our manner of
living? He is a very nice man, but
things, and he has never had the ad-
vantage of an education, as we have.
Oh, Dora, if he were to pour his cof-
fee into the saucer when Mr. Parker
is here, I think I should collapse."

"Peggy, child, I've an idea. Listen.
Why not write Mr. Parker to post-
pone his visit until next week, when
then father will be away on business,
the greater part of the week, and we
could coax mother to let Susan come.
She could bring her idea along for a
dining room girl, and we'd have a
dandy four-course dinner for his hon-
or. Why, I'm coming right up to sur-
prise Dora. It's John Parker, as sure
as I live! And mother's on the side
pork shelling peas; he's going right
there! Dora, call her in! There
comes father around the house in his
work clothes! Oh! Dora, call to
them! I must not forget."

"You're a darling Dora. Now let
me see, we simply must have new
napkins; it will keep us hustling to
get them hemmed. And mother
should have that lavender lawn made
up, she would look angelic in a be-
coming dress. She's prettier in blue
anyway, than she is in silk, bluish
her dear heart. I wish we could get
the front porch painted this week.
We do have a homey, comfortable
place, but, dear knows, it is not mod-
ern. I wonder who got off the car
today. Why, he's coming right up to
surprise Dora. It's John Parker, as
sure as I live! And mother's on the
side pork shelling peas; he's going
right there! Dora, call her in! There
comes father around the house in his
work clothes! Oh! Dora, call to
them! I must not forget."

"When Dora and Margaret, daintily
clad, appeared, they found their fa-
ther, mother and Mr. Parker laughing
and talking like old friends.
"I recognized your father from the
photograph you showed me, the mo-
ment I saw them, Miss Margaret, and
we have introduced ourselves. Your
father and I have a common interest
—trees and birds—and your mother
has been giving me some information
as to gardening. You know it is not
a bad thing. She has been good
enough to invite me to stay to dinner
—a dinner which she promises to pre-
pare herself. I feel highly honored."

"We shall be glad to have you stay,
I'm sure," murmured Margaret; but
she paled as a vision of pork, peas,
potatoes and crumb pie
floated before her.

Late that evening Margaret and
John Parker were sitting upon the
moonlit front porch. The long silence
was broken by a tense voice.

"Margaret, I have always admired
you. You seemed, now, since I have
met your parents, I think I under-
stand. Your father is a wonderful
man—one of nature's noblemen. I con-
sider it an education to know him,
and your mother—Ah, well! I'm glad
you are his daughter. You know I
was my first taste of pork. I'm sure
it's a long time, and dear, it comes near
my idea of heaven."

"Darling, I knew, ever since we
met, that I thought a great deal of
you—today the revelation has come—
I love you."—Buffalo Express.

Trying to Be Truthful.
"People who are not familiar with
court procedure have strange ideas of
the meanings of some of the technical
law terms," said City Attorney Daniel
W. Hoan in a recent talk. "It reminds
me of a story of the distinction made
by a colored witness in a Virginia case
with reference to an oath and an af-
firmation."

"This negro was summoned as a
witness in an important case. When
he entered the witness box he said
that he thought he wouldn't swear. He
thought he would just affirm."

"How is this?" the court asked. "In
a previous case you had no scruples
about taking an oath and you con-
fessed readily enough to swear. Why
is it that you will now only affirm?"

"May it please yo' honah," said the
negro, "de reason is that I ain't quite
so shore 'bout de facts de case as I
was 'bout dem de de other case."—
Milwaukee Evening Wisconsin.

Monogamy Proved Best.
Through the animal world careful
investigation shows that the nearer
the animals have approached the
ideal form of marriage the higher
they have reached in the scale of de-
velopment and the better and more
enduring is their offspring.

Their Handicap in Life.
Have you ever noticed that some
follow the rules of prejudice so close
that it looks as if they were under
contract with progress not to compete
with it?

OF PLAIN VEGETABLES

REMARKABLY PRETTY TABLE
DECORATIONS MAY BE MADE.

Call Only for the Exercise of a Little
Ingenuity, and the Quality of the
Food Is Not in the Least Im-
paired—Some Examples.

There are many artificial ways to
make lovely decorations, but in the
study of vegetable flowers we can
show a simple way of making our
everyday meals more appetizing and still
not interfere with the palatable part
of the dishes we prepare. These
things will appeal to every one who
may be interested in making home
dishes with pretty garnishes. For in-
stance, the small vegetable can be cut
into sprays, as follows:

Beets—Cut beets in fancy shapes;
they make a pretty garnish for any
salad; cut as cups to serve salad in
carries out the red color scheme;
sliced and cut like hearts carries out
the valentine idea.

Cabbage—Cut cabbage head like
flower; take out center and make in-
to a stem and serve in head. You can
also serve hot cauliflower for lunch-
eon in cabbage head or any other veg-
etable salad.

Cantaloupes—Cut cantaloupe in half,
scalloped, fill with green grapes and
serve as first course; can also serve
ice cream in the halves.

Celery—Cut celery about 3 inches
long, slash each end with scissors and
stand in ice-cold water until it curls;
then serve on lettuce leaves with may-
onnaise; this makes a good relish.

Lettuce—Cups are pretty to serve
salad in. Use fresh, crisp lettuce.
Potatoes—Boil and cream well by
running through ricer; season with a
little butter, milk, white pepper and
salt; when a little warm, color deli-
cately, put into tube, and make into
rings, sweet peas, etc., or mold into
morning glories or nests and eggs.

Make into cups large enough to hold
raw egg, run in stove until egg is
cooked, and serve around steak.
Make mound, serve chops around it,
and garnish with lettuce.

Radishes—Small red radishes can
be cut to look like carnations or tu-
lips; they make a beautiful garnish
for aspic in green, and are pretty on
lettuce with salad; cut in slices, they
look pretty on meat salad; cut with
celery, they are nice to serve in pep-
pers with a taste of onion.

Tomatoes—Cut tomatoes like pond
lilies; serve with slices of cucumbers
as a salad. Cut as cups, take out
center, mix with cucumber and cel-
ery, and serve with mayonnaise; these
cups can also be used for sweetbreads
and chicken. Serve in slices, with
cottage cheese between. Put nice to-
matoes in half and put cold cream
in center; serve on lettuce leaves.

Vegetable Soup.
A good vegetable soup is made in
this way: Brown in three tablespoon-
fuls of butter in a saucepan a sliced
onion, a sliced carrot, a sliced tomato,
a sliced turnip, a stick of celery and
a slice of ham. After they have browned
slowly for 15 minutes, add a quart
and a pint of cold water and three
or four tomatoes, two or three more
stalks of celery, some parsley and a
carrot, and simmer gently for an hour
or so. Then add three tablespoonfuls
of bread crumbs and rub the soup
through a strainer. Season well with
pepper and salt, and after it is re-
moved from the fire add a couple of
tablespoonfuls of butter. Serve with
the top and pass croutons with it.

Gold Potatoes.
In summer we will not be very con-
venient to have cold boiled potatoes
for use in potato salad or for frying
for breakfast or lunch or for creamed
potatoes.

We now find bacon and eggs so
agreeable and also so easy to cook
with little heating of the house that
we can easily dispose of the cold
potatoes by frying in bacon fat. This
will save using of meat while giving
a good tendency to balance the lighter
diet so desirable in hot weather.

To Keep Mattresses Clean.
Mattresses become soiled very easily.
A good way to keep them clean is to
unbleached cloth, the cheap kind
is just as good and not so heavy to
wash. Make a case just large enough
to fit the mattress, so it cannot
wrinkle.

Sew it across the head, leaving the
foot open. Slip it on and draw it
over the mattress. Sew it across the
head and foot in place. When it be-
comes soiled take it off, wash, iron
and replace. Cool, clean and sweet.

Planked Beefsteak.
Take two pounds of best round
steak, pound it well after sifting one
half cup flour over it; slice steaks
over the steak, salt and pepper
well, shake a dash of red pepper over
cold; fill dripping pan half full of
oil and water and place in a hot oven
to bake one hour; do not turn the
meat. Serve from the dish it was
baked in.

About Stockings.
Having trouble with my stockings
wearing out at the heels, I have dis-
covered that a very good way to pre-
vent this is to sew a piece of velvet
inside the back of the shoes. This
makes the stockings last much longer.
—Exchange.

About Potatoes.
Put the potatoes to soak a little
while with a small piece of common
soda in the water, and you will find
they are much easier to scrape and do
not soil the fingers.

For Brick Floors.
A red-bricked kitchen floor will keep
beautifully red and clean instead of
soap a drop of paraffin oil is used in
the water. This mixture removes all
the grease marks.

When Making Mint Sauce.
When making mint sauce if hot
vinegar is used instead of cold it will
greatly improve the flavor and give
the sauce better color.

BRAIN NOT INACTIVE

Remarkably Clever Work Done
by Insane Persons.

Many of Those Confined in Asylums,
Without Hope of Permanent Cure,
Earn Large Incomes by Pro-
ducing Works of Art.

"I am sure," said a well known mind
doctor to a New York Press writer,
"you would be amazed at the clever
work that is done by hundreds of men
and women who are hopelessly insane;
some of it at least as good as that
done by sane people who earn large
incomes."

"Among my patients today is one
man whose skill with the brush would
almost surely qualify him for high
rank if he were only in possession of
his senses. There are a few of the
great exhibitions which do not contain
one or more of his canvases, and he
has often received as much as \$500 for
a picture. And yet this man is as
'mad as a hatter,' the victim of ter-
rible homicidal attacks and subject to violent
humors."

"Naturally, his work is unreliable.
One week he will produce a masterly
and beautiful picture, with genius
in every line of it. The next he will
paint the most weird picture, a per-
fect nightmare in color, which, curi-
ously enough, he always considers a
masterpiece."

"And this man is no exception, for
there are scores of lunatics who are
quite excellent artists, and many of
them make good incomes by their art.
Several years ago an exhibition of pic-
tures, the work of insane patients of
the Bethlehem Royal hospital, was
open to the public, and I can assure
you many of them are beautiful works
of art."

"There are hundreds of other luna-
tics who are just as skillful in music
and literature. One of my own pa-
tients, who is hopelessly mad on one
subject and who is a perfect musical
genius, has composed operas and sym-
phonies and scores of songs which
have won considerable fame for him
have brought him a small fortune. I
know of many other insane men and
women who earn small and regular in-
comes in this way."

"There are, similarly, hundreds of
the insane who make a hobby, and
sometimes a profitable one, of writing.
Indeed, many of our asylums have
magazines which are almost entirely
the work of the patients."

"Even in our public asylums there
are hundreds of patients who make
money by skilled work of one sort or
another. Thus, in a country asylum I
know well one man who does the most
exquisite water color sketches, for
which he receives from \$15 to \$50
each, and he has a market for as
much as he can make. Another pa-
tient, like so many mad artists, he is
unable or unwilling to finish a
picture, and thus at least four-fifths
of his work is wasted."

"Another patient, a former sea cap-
tain, spends his time in making the
most perfect tiny models of ships,
carved with infinite skill and pains
from bone or ivory, for each of which
he gets \$5 to \$10. For one very elab-
orate and beautiful model of a cathed-
ral he was paid as much as \$150, and
he was certainly cheap at the price. A
third patient in the same asylum earns
many dollars a year by cutting the
cleverest silhouettes out of colored pa-
per."

"The women, too, are just as clever
as the men. I know one demented wo-
man who writes the most charming
books for children and verses for
Christmas cards. Another makes
a good income, in her lucid hours,
by illustrating books, and a third who
draws several hundred dollars a year
from royalties on her plays. And there
are countless women in our public
asylums who earn money in scores of
ways, such as knitting, lace making,
straw plaiting and leather work."

Shoemaking as a Pastime.
Smart women in Paris are said to
be taking up shoemaking as a hobby.
This is reverting to a London craze of
over a century ago. May 4, 1808, Mrs.
Charles Calvert, patient in the lunatic
asylum, wrote to her mother, "I be-
gin a new science today—shoe-
making. It is all the fashion. I had
a master with me for about two
hours, and I think I shall be able to
make very nice shoes." In the same
month Lady Sarah Spencer writes to
her brother: "I am today in a state
of great vanity. I have, to my eternal
glory be it spoken, made a pair of
shoes. There is for you! So if all
other trades fail I shall certainly es-
tablish myself cross-legged at the cor-
ner of an alley and earn a livelihood
in the midst of leather, awls and
hammers. In the evening Harriet and I
divide our time between music and
shoemaking, which is now the staple
trade of the family."

Florence Nightingale's Hope.
In the writings of Florence Nightingale
occurs this paragraph: "We are
only on the threshold of nursing. In
the future which I shall not see, for I
am old, may a better way be opened!
May the methods by which every in-
fant, every human being, will have the
best chance of health, the methods by
which every sick person will have the
best chance of recovery, be learned
and practiced! Hospitals are only an
intermediate stage of civilization, never
intended, at all events to take in
the whole sick population. May we
hope that the day will come when every
mother will become a health-nurse,
when every poor sick person will have
the opportunity of a share in a distinct
sick-nurse at home."

Stick to Your Own Opinion.
Isn't it a fact that the man who
agrees with everybody is almost as
unpopular as the one who agrees with
nobody? We must have minds of our
own and the good sense to keep them
to ourselves at the proper time.

Fewer Statistics.
People are most likely to fever be-
tween the ages of fifteen and twenty;
209 out of every 1,000 cases occur at
that age. There are only 10 per 1,000
under five and 1 per 1,000 over fifty-
five.

Woman's Danger Signals

Hot flashes—dizziness, fainting spells, headache, bearing-down
feeling and ill effects of a kindred nature—these are danger signals.
The female disturbance or irregularity back of these calls for help,
should have immediate care and attention. Otherwise the delicate
female constitution soon breaks down.

Dr. Pierce's Favorite Prescription

For more than 40 years has been lending its health restoring aid to thou-
sands of women year after year throughout its long life.

This wonderfully successful remedy imparts strength to the entire system—
particularly to the organs distinctly feminine. Nerves are refreshed. The "stale",
overworked business woman, the run-down housewife, and the weary care-worn
mother of a family—all will gain strength from this famous prescription which
40 years has demonstrated its effectiveness—in liquid or tablet form.

SOLD BY DEALERS IN MEDICINES.

Correspondence Strictly Confidential—and no charge.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver
and bowels. Sugar-coated tiny granules—easy to take as candy.

Buggy Ride With Her.

Did you ever take a buggy ride in
the still of the evening, down the
winding turns of a country pike, with
the fair one by your side? If so, "nuff
said. With a proper sense of propor-
tion, an old-time buggy was made to
hold exactly one and a half. The re-
sult was propinquity—also bliss.
Along the road—all too short—you
drove. Moo cows moored in the dis-
tance. Anxious mothers came to the
door and cried: "W-I-I-I-I-I!" But
you were lost to bovine plaints and
maternal solicitudes. Pursued from
the dog fennel mingled with the
faint perfume of the thistle's bloom.
The night dew lay on the fields, star-
light drenched the earth and you dis-
covered you had a soul. The air was
chill, and you fixed a shawl. Hands
touched and withdrew, followed by
most eloquent and ecstatic silence.
Then came the parting, as you "hand-
ed" her out at the gate. A whispered
good-by, lest any other hear, and a
retracing vision of a rosebud fairer
than John D.'s pastor ever dreamed
of—Washington Post.

Sacrificed All for Hobby.
At Ivory, a Paris suburb, has just died
a remarkable old man, a septuagenar-
ian, named Fraissard. He died in pov-
erty, but had he chosen he could have
become one of the most famous Euro-
pean sculptors. As it was, he finished
life as he began it—more or less pen-
niless. When a boy he was appren-
ticed to a marble cutter, and he at
once discovered his powers in this di-
rection. For fifty years he had contin-
ued to execute the most beautiful works
of art, mostly in marble. M. Fraissard's
masterpiece took him nearly
twenty-four years to perfect. It is a
black marble table. In the middle is
a chessboard, on either side of which
are playing cards arranged as fans. On
the table are dominoes and dice, cig-
ars and cigarettes, and several coins in
gold and silver. All these are, of
course, inlaid. The materials in the
table, beside the black marble, are
agate, onyx, porphyry, malachite and
lapis lazuli, the tones of which are
black, red, orange, blue and white.
Ninety different kinds of marble were
also used.

Richmond's Industries — Number of
Men Employed.

In answer to numerous inquiries as
to the number of manufacturing and
the number of men employed, The Terminal
herewith publishes a list for the benefit
of its readers and those who may be in-
terested in Richmond's development.
Richmond has 34 manufacturing plants, 8 of
which employ (March 1, 1913) 4355 men,
classified as follows:

Industry	No. of Men Employed
Standard Oil Co.	2400
Pullman Shops	750
Santa Fe Shops	600
Western Pipe Works	175
California Wine Association	105
San Francisco Quarries	100
Pacific Portland Works	100
Pacific Sanitary Mfg. Co.	75

Total..... 4355
Besides the above there are 26 smaller
manufacturing industries in Richmond
such as brick works, cap and match fac-
tories, etc., employing 850 men and
women. These figures are conservative
and not given for advertising purposes.
They are taken from statistics gathered
by the Western States Gas & Electric
Co., by request of their main headquar-
ters at Chicago.

The assessed valuation of Richmond
property is \$12,333,352.10. Bonded in-
debtedness, \$300,000, for harbor im-
provements. Number of building per-
mits for 1912 were 902, value \$300,000.

THE TERMINAL

ISSUED EVERY FRIDAY
Established in 1903
Legal City and County Paper

TERMS OF SUBSCRIPTION:
One year, in advance..... \$2.00
Six months in advance..... \$1.00
Advertising rates on application

Entered as SECOND-CLASS MATTER June
10, 1903 at RICHMOND, CALIFORNIA, under
the ACT OF CONGRESS of March 3, 1879.

Legal notices must be paid for on or before
delivery of affidavit of publication. No excep-
tion to this rule.

"For the cause that lacks assistance,
Against the wrong that needs resistance,
For the future in the distance,
And the good that we can do."

It is October, morn now, but no
more clothes are needed.

The new song, "When you get
the money, drop in and pay it,"
is appropriate if not popular.

San Jose voted six to one in favor
of turning its public utilities over to
the state railroad commission.

The White Star Line of ocean
steamers it is said will land vessels
at Richmond inner harbor on their
route near Ellis landing in 1915.

It is said the Japanese are leaving
California for Florida. And now
Florida darkeys say "there will be
something stirring" at an early date.

The Palo Alto Citizen has im-
proved and enlarged under its new
management. B. F. Bickel is the
editor. He delivers a neat and up-
to date newspaper.

The San Enselmo Herald has
changed hands. Timothy Brown
hill is now editor and manager.
Mr. Brownhill is making im-
provements of a substantial character in
the Herald office and is delivering a
good paper.

The Panama canal is ready for
business. The big ditch was con-
sidered an impossibility a decade
ago. Wasn't there a live wire by
the name of Roosevelt who started
the big project, the fellow who put
the "man" in Panama.

Those who imagined that the
city water was flavored with Jap
or Chinese consomme, caused by
the report started by an enemy of
the water company that an oriental
had raised the lid of the reservoir
and jumped in, are pleased to learn
that the rumor is unfounded. The
water commission disclaim any
knowledge of this "ghostly joke."

By a vote of 6 to 1 San Jose has
turned her public utilities over to
the State Railroad Commission.
The commission will now have
complete charge of fixing the rates
for all public utilities such as gas,
electricity, water, telephone, street
railways, common carriers, etc.
Cities that have previously turned
over their rate fixing power to the
commission are: Palo Alto, Willits,
Orange, Covina, Monterey, Salinas,
Eagle Rock, Antioch, Belvedere
and Daly City.

The Stockton Record analyzes
Congressman Chas. F. Curry thusly:
"Charles Curry does not travel
under false colors. He is a ma-
nipulator. He has little or no
sympathy with progressive poli-
cies. He is clever, able, diplomatic
and long sighted, but his political
associations and his votes are con-
sistently reactionary. Which is
more than can be said for several
other members of the California
delegation who are political four-
flushers and double dealers."

County supervisors are empow-
ered to divert money from the gen-
eral fund for the improvement of
county highways, and there is no
incorporated city that will object to
this way of improving thorough-
fares that are a direct benefit and a
big asset to the community. The
extra cost of ten cents levied by the
Contra Costa board of supervisors
includes \$20,000 for the new hall of
records, hospital improvements
\$8000, and \$10,000 for superior
court expenses and funds for the
elections of 1914.

The World of Labor.
Italy has 784,000 unionists.
Frisco has 1032 union printers.
Japan's pearl divers are women.
There are 210,000 union carpen-
ters.

There are 3,042,000 unionists in
Germany.

There are 1500 union carpenters
in Milwaukee.

In Duluth \$35 per month is the
maximum scale for eighth grade
teachers.

Chinese printers at Darbin Man-
churia, are paid thirty-five cents a
day.

Metal workers in Birmingham,
England, have secured a minimum
weekly wage of \$5.50.

HAS A DISTINCT FIELD.

Newspaper publishers receive a
vast amount of instruction as to
how they should conduct their pub-
lications, and if they followed the
advice offered by the many "wise
ones," there would be nothing but
up-to-the-minute dailies, served on
silver platters, right on the dot at
the door of the patron at less than
the cost of white paper. The pub-
lisher is supposed to get off on the
advertising end. He hears many
pipe dreams about the "money in
advertising," usually rehearsed by
the fellow that knows all about the
newspaper business—nit.

Occasionally we run across the
opinion that the day of the country
newspaper is about over; that a
number of changes have made the
daily newspaper so easy to obtain
that it is certain to drive the weekly
out of existence, as the small weekly
cannot hope to compete with the
great daily and its elaborate equip-
ment and greater variety of reading
matter.

If the country newspaper seeks
to compete with the city daily in
the rapid treatment of the news of
the day, it is bound to fail. It is
not and cannot be equipped for
such a fight. But no such competi-
tion is necessary.

The country weekly has a field
all its own which cannot be served
by any other agency. It has a
thousand things of local interest to
discuss which the daily papers can-
not touch. It is surrounded by
problems of local importance which
mean nothing to the city proper.

It has the opportunity to culti-
vate close personal relations, which
mean so much and in the absence
of which the daily newspaper can
never become more than a paper of
general interest. Wherever the
country weekly suffers from com-
petition with the city daily, it is be-
cause it tries to cover a field which
is really the field of the daily and
neglects to cultivate the field in
which it is and in which it must
remain supreme.

The Richmond Terminal has
grown up with the city, and is an
integral part of it. The oldest
newspaper in Richmond, it is here
to stay. Its clientele constitutes
the best citizenship, the progressive,
enterprising class who, like The
Terminal, will always be found at
the front endeavoring to make the
name "Richmond" famous the
world over as a great manufactur-
ing city and a mecca for the work-
ingman.

This is the mission The Ter-
minal stated to fulfill eleven years
ago on this spot, then a barley field.
The Terminal is still on the job.

"BREAKERS AHEAD."

It has developed in labor circles
that there is an agency quietly at
work to remove Fred W. Heckman
from the position of business agent
which he so satisfactorily fills for
organized labor of Richmond.

Mr. Heckman is highly qualified
for the position. He is an old resi-
dent and thoroughly acquainted
with the local situation. He is
always on duty and as an ad-
juster of disagreements and other
matters pertaining to his office,
has rendered good service.

The disturbing elements both in
side and outside of organized labor
are always in evidence, their object
being to cause internal strife. This
was expected, and it is just what
organized labor will endeavor to
prevent. The methods employed
by the disorganizer are of the gum
shoe variety so well known both to
the inner and outer circles.

Organized labor of Richmond
must look out for traitors as well as
breakers. Traps cunningly baited
and set are in waiting. Forewarned
is forearmed. The "slipping over"
trick will be attempted. Are you
willing to let history repeat itself
again in Richmond?

TO ADVERTISERS.

There are employed in Richmond 3000
organized workers. This newspaper was
the only organ in Richmond that sup-
ported union labor in its fight against
the open shop on Tuesday, August 19.
The Terminal in consequence will con-
tinue to prosper and grow, for the work-
ingman is a consumer as well as a
producer and distributor of his earnings.
He naturally will patronize the paper
that stands by him in his struggle for
better conditions. The Terminal is the
workingman's friend, and its advertisers
will surely reap the benefits of publicity
placed in its columns. The Terminal is
the oldest newspaper in Richmond, was
the first to carry the allied printing
trades label at its masthead. Merchants
need no instructions in placing their
publicity where it will be most effective.

The Terminal job printing plant
is being enlarged.

Antiquity of the Saw.

The saw is the earliest tool that has
been traced in Egyptian history. It
was found first in the form of a notch-
ed bronze knife in the third dynasty,
or about 5000 years before the Chris-
tian era, and was followed in the fourth
and fifth dynasties by larger toothed
saws, which were used by carpenters,
but there are no dated specimens until
the seventh century before the Chris-
tian era, when the Assyrians used iron
saws. The first knives on record, were
made out of flint and were in fact
saws with minute teeth. They prob-
ably were used for cutting up animals,
as the teeth would break away even
on soft wood. Rasps, which are but a
form of saw, were first made of sheets
of bronze, punched and rolled round,
but the Assyrians in the seventh cen-
tury used the straight rasp made of
iron similar to the modern type. It has
taken three distinct forms for the
working of both wood and metal—the
straight saw, the hand saw and the
circular saw.

The Canvasback.
Of all the wild fowl family the can-
vasback duck is easily the king. Its
flesh is matchless in sweet flavor un-
less it be by that of the redhead,
and the extremely high price of it
shows how precious and rare it has
become. Not many years ago there
was little difficulty in procuring a good
bag of this bird on the shores of the
Chesapeake, where it feeds upon the
wild celery that gives distinction to its
flesh. Today the canvasback is a rare
bird, indeed. It is going the way of all
flesh, only faster than most, and its
disappearance will be, unlike that of
the dodo, a gustatory calamity. Its
funeral procession follows close upon
the obsequies of the prairie hen and
the wild turkey. Voracious man, gun
in hand, has been as thoughtless as
a gluttonous child and sought to eat
all his cake at a gulp.—Philadelphia
Press.

A Very Lucky Smoke.
A curious story comes from Vienna.
A young man, the representative of a
famous firm, who carried a large sum
of money with him, spent the night at
a hotel at Pressburg. According to his
usual custom, he remained some time
smoking in bed. Suddenly the burn-
ing cigar fell to the floor. He bent
to the door, opened it and saw a
hand project from under the bed and
put out the fire. It made him very
uncomfortable, and he lay for fifteen
minutes thinking. Then he said aloud:
"How very cold it is! I must get my
fur coat." Jumping out of bed, he ran
to the door, opened it and shouted for
help, and the robber was caught. He
confessed his crime and then added
that he had been a fireman formerly
and could not resist the impulse to ex-
tinguish the burning cigar.

Got His Answer.
A grocer said to a little girl one elec-
tion day:
"Who is your father going to vote
for this morning, my dear?"
"I don't know," the little girl an-
swered.

"Will he vote the Republican ticket?"
"I don't know."
"I wonder if he'll vote Democrat?"
"I don't know."
"He wouldn't vote Prohibition sure-
ly?"
"I don't know."

The grocer then he tied up the little
girl's package and said:
"Well, you don't know much, and
that's a fact."
"You know less," the little girl an-
swered, "or you wouldn't be askin' so
many questions."—Exchange.

Corrected.
The annoyances to which pedestrians
in large cities are subjected and the
sometimes positive dangers to which
they are exposed occasionally give rise
to real jests. Take this one:
Two young men walking beneath an
electric railway in a town that shall
be nameless were appalled to find them-
selves the recipients of a bucketful of
oil flung dropped on their heads from
above.

"So this is America!" sneered the
first, wiping his neck.
"It's not," declared the second. "This
is Greece!"—Cleveland Plain Dealer.

Ways of the Servians.
The Servians are a genuine simple
peasant folk. The Servian practices
the art of co-operation. Every little
homestead in Servia is a family com-
mune, while in some of the mountain
districts exist the gadjies, or common
villages, where everything is held in
common and where the oldest man is
the guide and commander and final au-
thority as to the mating of the people
to his district.

Cheerful.
Landlady (showing room)—And such
a cheerful view, sir. (Guests looking
out)—Why, it's a cemetery! Land-
lady—Yes, sir. How cheerin' and com-
fortin' it will be when you gaze out
to think that you're not there.—Lon-
don Punch.

Must Be Queer.
"He's a peculiar chap."
"Why so?"
"He not only goes shopping with his
wife, but he also admits that he likes
to"—Detroit Free Press.

Talks Them Up.
"He talks well, doesn't he?"
"Of course he talks well. He has oc-
casion to talk well. He digs the ar-
tisan kind."—Baltimore American.

De Quincey and the Census.
De Quincey once had to fill up a
census paper, and the act questions
puzzled him greatly. He finally man-
aged to characterize his occupation as
"writer to the nags." But when it
came to the occupations of his three
daughters his troubles began again.
At last he put a ring around their
names and wrote, "They are like lil-
les of the field—they toll not, neither do
they spin."

Knew the Symptoms.
Young Wife—My sweetest, darling,
best hearted hubby! Hubby resigned-
ly—All right, spring it. I am prepared
for the worst.—Magdalenor Hlat-
ter.

SHERIFF SALE.

D. L. Bojst, Plaintiff, vs. Mary
O'Kane, Defendant.

In the superior court of Contra Costa
county, state of California.

Under and by virtue of a writ of exe-
cution, to me directed, issued out of the
superior court of the county of Contra
Costa, state of California, on the 17th
day of September, 1913, in the above
entitled action, wherein D. L. Bojst re-
covered a judgment against Mary O'-
Kane, which judgment was duly entered
and docketed on the 17th day of August,
1913, an abstract of said judgment was
filed in the office of the County Clerk of
the county of Contra Costa, in a Judg-
ment Docket of the Superior Court
thereof on the 17th day of September,
1913, for the sum of forty-five (\$45)
dollars with interest, together with four
and 65/100 dollars costs and accruing costs
of one and 75/100 dollars. I have levied
upon and taken under execution, all the
right, title and interest, which the said
Mary O'Kane had or held on the 17th
day of August 1913, or at any time sub-
sequent thereto, in and to all those cer-
tain lots, pieces or parcels of land, lying
and being in the county of Contra Costa,
state of California, and described as fol-
lows:

Lots twenty-six (26), twenty-seven
(27) and twenty-eight (28), block thirty-
three (33), city of Richmond, Contra
Costa county, now standing in the name
of the defendant, Mary O'Kane.

Together with all the improvements and
appurtenances thereto belonging.

Public notice is hereby given that on
Tuesday, the 26th day of October, 1913, at
11 o'clock a. m. of that day, in front of
the court house in the town of Martinez,
county of Contra Costa, I will sell all the
right, title and interest, which the said
defendant, Mary O'Kane, had or held on
the 17th day of August, 1913, the day on
which said judgment was docketed as
aforesaid, or which she may have sub-
sequently acquired in and to the above
described property to the highest bidder
for gold coin of the United States.

Dated Martinez, Sept. 26th, 1913.
R. R. VEALE, Sheriff of Contra Costa County.
W. M. VEALE, Deputy Sheriff.

SHERIFF SALE.
Pessie Saffine, Plaintiff vs. Abraham
Saffine, Defendant.

In the Superior Court, Contra Costa
County, State of California.

Under and by virtue of a writ of exe-
cution, to me directed, issued out of the
Superior Court of the county of Contra
Costa, state of California, on the 15th
day of September, 1913, in the above en-
titled action, wherein Pessie Saffine re-
covered a judgment against Abraham
Saffine which judgment was duly entered
and docketed on the 5th day of July, A. D.
1913 for the sum of five hundred fifty
(\$550.00) dollars, damages, Gold Coin,
with interest, together with one and
25/100 dollars costs, and accruing costs,
I have levied upon and taken under exe-
cution all the right, title and interest
which the said Abraham Saffine had or
held on the 5th day of July, A. D. 1913,
or at any time subsequent thereto, in
and to all that certain lot, piece, or par-
cel of land, lying and being in the city
of Richmond, county of Contra Costa, state
of California, known and described as
follows, to wit:

Lot No. 8, block No. 96, as delineated
upon that certain map, entitled
"Amended Map of the City of Rich-
mond," being a portion of lot No. 54 of
the final partition of the San Pablo
Rancho, Contra Costa county, California,
surveyed and delineated by H. F. Ter-
rett, C. E., January, 1905, recorded on
the 31st day of March 1905, in the office
of the County Recorder of the county of
Contra Costa, state of California, and
being the same land mentioned in that
certain agreement of sale, I. C. Taylor of
Berkeley, Alameda county, and Abe
Saffine dated January 25, 1910, recorded
February 29, 1910, in Liber 153 of Deeds,
page 37, together with all the improve-
ments and appurtenances thereto be-
longing.

Public notice is hereby given that on
Tuesday the 17th day of October A. D.
1913, at 11 o'clock a. m. of that day, in
front of the Court House, in the town of
Martinez, county of Contra Costa, I will
sell all the right, title and interest which
the said defendant, Abraham Saffine had
or held on the 5th day of July, 1913, the
day on which said judgment was dock-
eted as aforesaid, or which he may have
subsequently acquired in and to the
above described property, to the highest
bidder for gold coin of the United
States.

Dated Martinez, September 16th, 1913.
R. R. VEALE, Sheriff.
W. M. VEALE, Deputy Sheriff.
Sept. 19, 26, Oct. 3, 10.

SUMMONS.
In the Superior Court of the county of
Contra Costa, state of California.
J. E. Littlefield, plaintiff, vs. A. E.
Graham, defendant.

Action brought in the Superior Court
of the county of Contra Costa, state of
California, and the complaint filed in
the office of the clerk of said county of
Contra Costa.

The people of the state of California
send greeting to A. E. Graham, de-
fendant.

You are hereby directed to appear,
and answer the complaint in an action
entitled as above, brought against you
in the Superior Court of the county of
Contra Costa, state of California, within
ten days after the service on you of this
Summons, if served within this county,
or within thirty days if served elsewhere.

And you are hereby notified that un-
less you appear and answer as above
required, the said plaintiff will take
judgment against you for any money or
damages demanded in the complaint, as
arising upon contract or will apply to
the court for any other relief demanded
in the complaint.

Given under my hand and the seal of
the superior court of the county of
Contra Costa, state of California, this 21st
day of July, A. D. 1913.

**The Best Home Lighting Is
Possible For You.**
Electric lighting gives less trouble than any
illumination. It does not soil walls and ceilings.
You save in decorating costs. You can use as
little as you want, or as much—from two candle
power up. House wiring and fixtures are a
sound investment—not an expense. Let us
show you.

**Western States Gas and
Electric Company.**
617 Macdonald Ave. Richmond, California

Cooking With Gas Means
—a quick heat when and where you want it.
—a slow fire in a second—a quick one in the same length of time.
—freedom from work, worry.
—reducing your fuel bill.
—perfect satisfaction.
Why Don't YOU Cook With Gas?
"Pacific Service" is "Perfect Service"
